## STORMWATER MANAGEMENT EVALUATION REVIEW APPLICATION

\_\_\_\_\_  
(Owner/Applicant Name)

\_\_\_\_\_  
(Mailing Address)

\_\_\_\_\_  
(Phone Number)

\_\_\_\_\_  
(City, State, Zip)

\_\_\_\_\_  
(E-mail address)

Tax Key # \_\_\_\_\_

Zoning Code \_\_\_\_\_

Address Assignment:

\_\_\_\_\_  
(No.) (Street)

If no address is available give a clear description of the location that will enable the engineer to conduct the site visit. *(Example: across the street from N1111 Main Street in the Poplar Grove subdivision.)*

New Construction Permit # \_\_\_\_\_  
Building Zoning

Type of Construction - Indicate the type of construction proposed. (ie: single-family residence, commercial building, pole barn, garage, etc):

Plans: Attach a plat of survey indicating the size and location of the proposed construction. Show proposed drainage patterns of stormwater runoff and grade elevations. If a property is 1/2 acre or larger indicate any portion of the property that will be left in its natural state. *(Example: unmowed, wooded, cropland)*

\_\_\_\_\_  
Signature of owner/agent Print name here Date

Basic engineering fee of \$200.00 (non-refundable) to be paid at time request is submitted. Applicant agrees to pay engineering fees in excess of the basic cost that may occur with large or difficult projects.

## **BLOOMFIELD Stormwater Management Evaluation Procedures**

1. The property owner submits completed application and \$200.00 fee.
2. The application is received and dated by municipal representative.
3. Receipt for fee is issued.
4. The Zoning Administrator forwards the application to the engineer via fax.
5. Engineer conducts site visit.
6. Engineer completes written evaluation and forwards to the Zoning Administrator via fax or email. Original copy is mailed to the Zoning Administrator.
7. Zoning Administrator forwards copy of written evaluation to owner/agent named on application and the building inspector.
8. Building permits can be applied for at that time; however, a building permit must be issued within six (6) months of the date of the stormwater review other said review shall be void. A copy of the evaluation should be posted on site along with all other permits.
9. On-site inspections by the building inspector will include a visual inspection of compliance with the engineering requirements. The owner/builder will be notified of any compliance issues that are observed at that time.
10. If compliance issues continue the building inspector may choose to notify the engineers. The engineers may then conduct a site visit to inspect stormwater compliance. Any cost for this action shall be billed to the owner by the municipality.
11. Occupancy permits will be issued only to projects that have met all stormwater engineering requirements.
